

THE DIFFERENCE BETWEEN THESE FILES AND THE PRINTED MANUSCRIPT

1. The page number on the first page of each chapter will be at the top right rather than centered at the bottom as required.
2. The vita is included in the Front Matter file rather than at the very end of the project.
3. There is no blank page in the Front Matter file between the title page and table of contents.
4. The JUMP brochure is in landscape mode and a three column document. It is too complex to insert into the Decision Seminar document and preserve the formatting. These two pages take the place of the two blank pages at 173-174 in Seminar Three: Decision.

SUGGESTIONS FOR READING:

The project utilizes *Understanding by Design* as a pedagogical method blended with the *Diffusion of Innovations*. After reading the 8 page *Introduction*, reading *Chapter Three: Learning Strategy* next would probably supply answers to a lot of questions with regard to the structure and content of the rest of the project.

When the seminars are presented to laity, at the right time the other parts of the project are assigned for reading as homework. The seminar material prepares and provides background for the Introduction and chapters one, two and three. This might also be helpful; it's difficult to keep the details of the entire project in one's mind.
